Lubrizol hasn't given us good projections on their timeline for providing information and also they have not contacted us to update the last date of mid-December.

I think we're at a point that we need to make a decision on how to proceed with the demand letters.

1) Do we give Lubrizol more time and how much time or 2) should we proceed with demand letters to the identified PRPs.

Can you tell me the purpose of the update? To my knowledge, nothing has changed since the last update. Let me know so I can be ready. Thanks
